Sean and Davis,

Attached is daily report for Monday 5/14/18 which includes oversight of the surface sediment sampling on the Cayuse and Tieton.

An updated version of the Sunday 5/12/18 report is also attached. Changes are shown in RLSO and include the addition of sediment descriptions for samples collected on the Cayuse.

The Pre-RD Group is not conducting surface sediment sampling today.

Please contact me if you have any questions.

Thanks, Greg
